These terms are under the name of the Victoria School of Writing.

How voice the silent dash? Say blindfold, hinge, there, spike, rope, slash. Tight as a knot in binder-twine. Pain hope. Legally bound (not just the feet). "Exclusion Act," head tax, railway car to an internment camp, non-status outskirts of town nomad other side of tracks no track. Minus mark, not equal sign. A shadow, a fragile particle of ash, a residue of ghost bone down the creek without a bridge for the elusive unacknowledged "im" of migratory tongue some check to trespass kick the gate the door the either/or, the lottery and the laundry mark, the double mirror, the link between. How float this sign, this agent of the stand-in. Caboose it here and let it go, it's "Not in Service" anymore.
